

FOR YOUTH DEVELOPMENT
FOR HEALTHY LIVING
FOR SOCIAL RESPONSIBILITY

Dear Members and Program Participants,

At the Ocean Community YMCA safety of children and adults is our number one priority. The Board of Directors have policies and procedures in place to train staff and volunteers on this issue. Recently the Y has been educated through our risk management company that once again the environment around abuse has evolved.

In continuing with our history of updating our practices and procedures to be ever stronger, we are once again taking the steps necessary to change with this changing environment. This time we need your help!

One of the steps we are taking as an organization to strengthen our practices regarding abuse prevention and keep our community members safe especially the most vulnerable of our community, our children, is to educate all of our members regarding child abuse prevention. What can you do as a parent, guardian, grandparent, aunt, uncle, neighbor or friend? How can you help us keep all of our children safe? To find out the answers to these questions please read the attached flyer regarding our commitment to continue providing children a safe environment free from abuse.

After reading this flyer, join us in our commitment to keep children and adults safe. The more community members we have join us the stronger and more successful we will be at helping our children and adults. Help us to keep the conversation open and honest surrounding this topic.

Please feel free to contact myself or any Branch Director to discuss this topic further,

Sincerely,

Maureen N. Fitzgerald
President/CEO
