Green signifies a lower intensity class

Blue signifies a moderate intensity class

Purple signifies a higher intensity class

Group Fitness Class Descriptions

Abs and Arms — 30 min express workout using stability balls, medicine balls, hand weights, & tubing. Focus is on strengthening arms and core.

Abs and Glutes— 30 min express workout designed to strengthen core muscles and target abdominal, glutes, back and hips. This class includes pilates-style exercises.

Barre — A series of movements that strengthens and lengthens the entire body and promotes balance and stability. Includes a combination of functional strength and athletic movements in conjunction with the core conditioning principles of Pilates, ballet, and Yoga.

Cardio Dance—An exhilarating full body workout akin to Zumba but with wider musical options

Cardio Sculpt —This class combines cardio (Step & floor routines) and Body Sculpting in an interval format to give you an overall workout!

Cross Conditioning — Total body conditioning designed to burn calories, build strength and enhance your aerobic fitness in this athletic circuit class. This class combines skills, drills, running and alternate cardio and strength segments for a challenging workout.

***EnhanceFitness®** — Evidence based 16-week program which focuses on increasing cardiovascular endurance, strength, balance, and flexibility to help reduce arthritis symptoms.

H.I.I.T. Cardio Core— A high intensity interval type class with a focus on cardio, strength, and powerful core moves. Kickboxing, weights, stability balls, and other equipment may be used during this class to challenge your entire body. Exercises can be modified to your level of fitness.

Flow Yoga — Smoothly connect Yoga poses with mindful breathing to create strength, balance, and flexibility of the mind and body.

Guided Meditation — Guided relaxation and focusing exercises will help calm the mind, rebalance emotions, lower blood pressure/heart rate and boost the immunity. Guided Meditation is the easiest way to meditate and is appropriate for all levels of experience.

Mindful Yoga — Integrates a slow flow-based style of Yoga with Basic Mindfulness and conscious breath awareness to help calm the nervous system. A release of deep seated tension in the spine and an improvement in posture while re-balancing the mind/body connection.

Muscle Sculpt — Strength training: targeting all major muscle groups.

Nei Kung — A system of Qi Gong formalized by Grandmaster C.K. Chu, is an hour long exercise that is meditative. Participants can expect to have increased energy and focus after this class.

Pilates — Designed to take you from basic to advanced mat exercises that will increase your body's strength, flexibility and core stability.

Running Club — Outdoor running sessions for beginner/intermediate/advanced runners who want to start a running program and/or develop their running skills.

Senior Wellness — Total body conditioning class using a chair for seated and standing support. Class builds muscle, strength, range of motion, balance and flexibility. A workout to assist with activities of daily living.

Senior Yoga — Help improve balance and flexibility, with the aim of increasing overall health benefits.

Spin — An overall cardiovascular workout using the spin bikes that includes guided rides with a focus on climbing and riding at a pace that challenges and strengthens your mind and body.

Spin Intervals— Experience a full ride of hills, sprints and endurance intervals along with weight training off the bike. Experience the benefits of a cardio workout plus strength building in one class.

Step — Intricate choreography combinations for participants that are familiar with the basics of stepping.

Strength and Conditioning — A full-body muscle workout focused on functional strength, core conditioning, and flexibility.

Stretch and Core—A blend of stretches to lengthen and strengthen your muscles and core stability training designed to improve strength and suppleness.

Strong by Zumba—Music-Led High Intensity Interval Training (HIIT) that pushes you to achieve your most ambitious fitness goals using only your body weight.

Total Body Burn— A total body conditioning working the upper and lower body together to give you a great strength and cardio workout

Tai Chi Chuan — Slow balanced movements concentrated on developing internal power, increased circulation and overall harmony of the body.

TRX Classes — Suspension training that uses gravity against the individual's own body weight to simultaneously develop strength, balance, flexibility and core stability.

TRX Interval — Using the suspension training system along with quick transitions keeps your heart rate up and burning calories.

TRX/Cross Conditioning — Using the suspension training system along with a full body aerobic circuit class that keeps your heart rate up for a challenging workout

Vinyasa Yoga: One hour of Power yoga will appeal to people who are already quite fit, enjoy exercising, and want to work hard and work up a sweat. The focus is on building strength, becoming more flexible and balanced.

Zumbatoning —This class combines body sculpting moves with easy to follow dance steps to international and Latin music, creating a dynamic and exciting class.

Zumba —Come join the party! Zumba fuses Latin rhythm with easy to follow dance moves to create a dynamic fitness program that will blow you away!
